ROBOTICS DAY CAMP

Parents Information:

First Name: Last Name:

Address:

City: State: Zip:

Phone: Email:

Student Information:

First Name: Last Name:

2024-2025 Grade Level: 5th ☐ 6th ☐ 7th ☐

While attending the Robotics Day Camp, your child will be learning and using STEM skills like physics, mathematics, and engineering to build and program LEGO Mindstorms EV3 robots to complete fun and challenging tasks and missions in an outer space themed playing field.

They will use the LEGO Space Challenge Set to design and build programmable robots using high quality motors, sensors, gears, wheels, axles, and other technical components.

They will put their robots to the ultimate test by using them to explore the harsh surface of Mars. This hands-on experience with programming, sensors, motors and intelligent units will help your child develop solutions through teamwork skills. Giving them an early start with robotics and STEM subjects.

Mail filled out form to:

David Nelson
